

TM

**Bountiful harvest.
Boundless possibilities.**

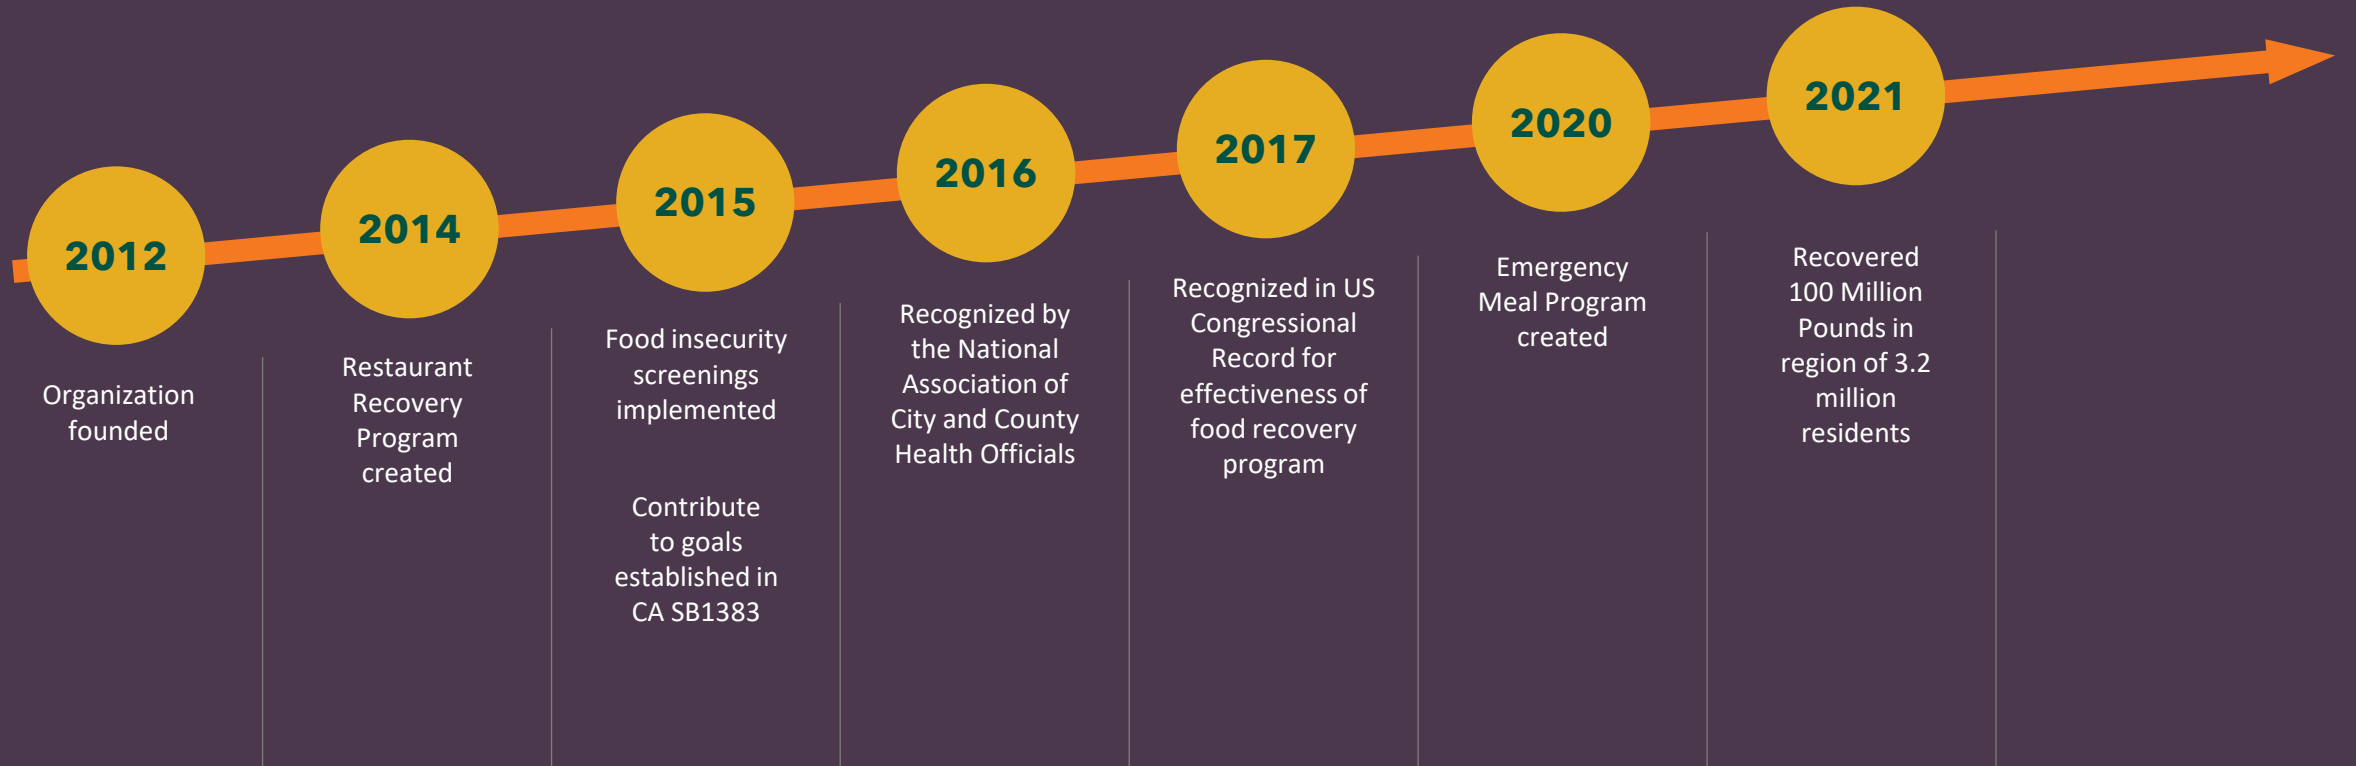

Our mission

We provide solutions and facilitate collaboration with public, private, and non-profit sectors to guide and support the implementation of regional food care programs that optimize the supply chain to end hunger and food waste.

Abound Food Care™

An innovator in food recovery

Food care

is the active and passionate protection of food, its process, cost, and impact.

SB-1383

- California state mandate
 - Reduce organic waste destined for landfills by 75%
 - Increase Food Recovered by 20%
- Regulations effective January 1, 2022
- Jurisdictions required to implement local edible food recovery programs
 - Gap analysis, expand capacity if current capacity is insufficient
 - Provide education and outreach to Tier 1 and Tier 2 generators
 - Increase generator access to food recovery organizations (FRO)
 - Monitor compliance and conduct enforcement

30-40%

of all food produced
ends up being wasted

Model Challenges

- Cost of inefficient logistics
- Inconsistent tracking/reporting
- Limited FRO capacity leads to continued food waste

Building a more efficient model

Food Care Oversight

- Program Administration
- Education
- Audit

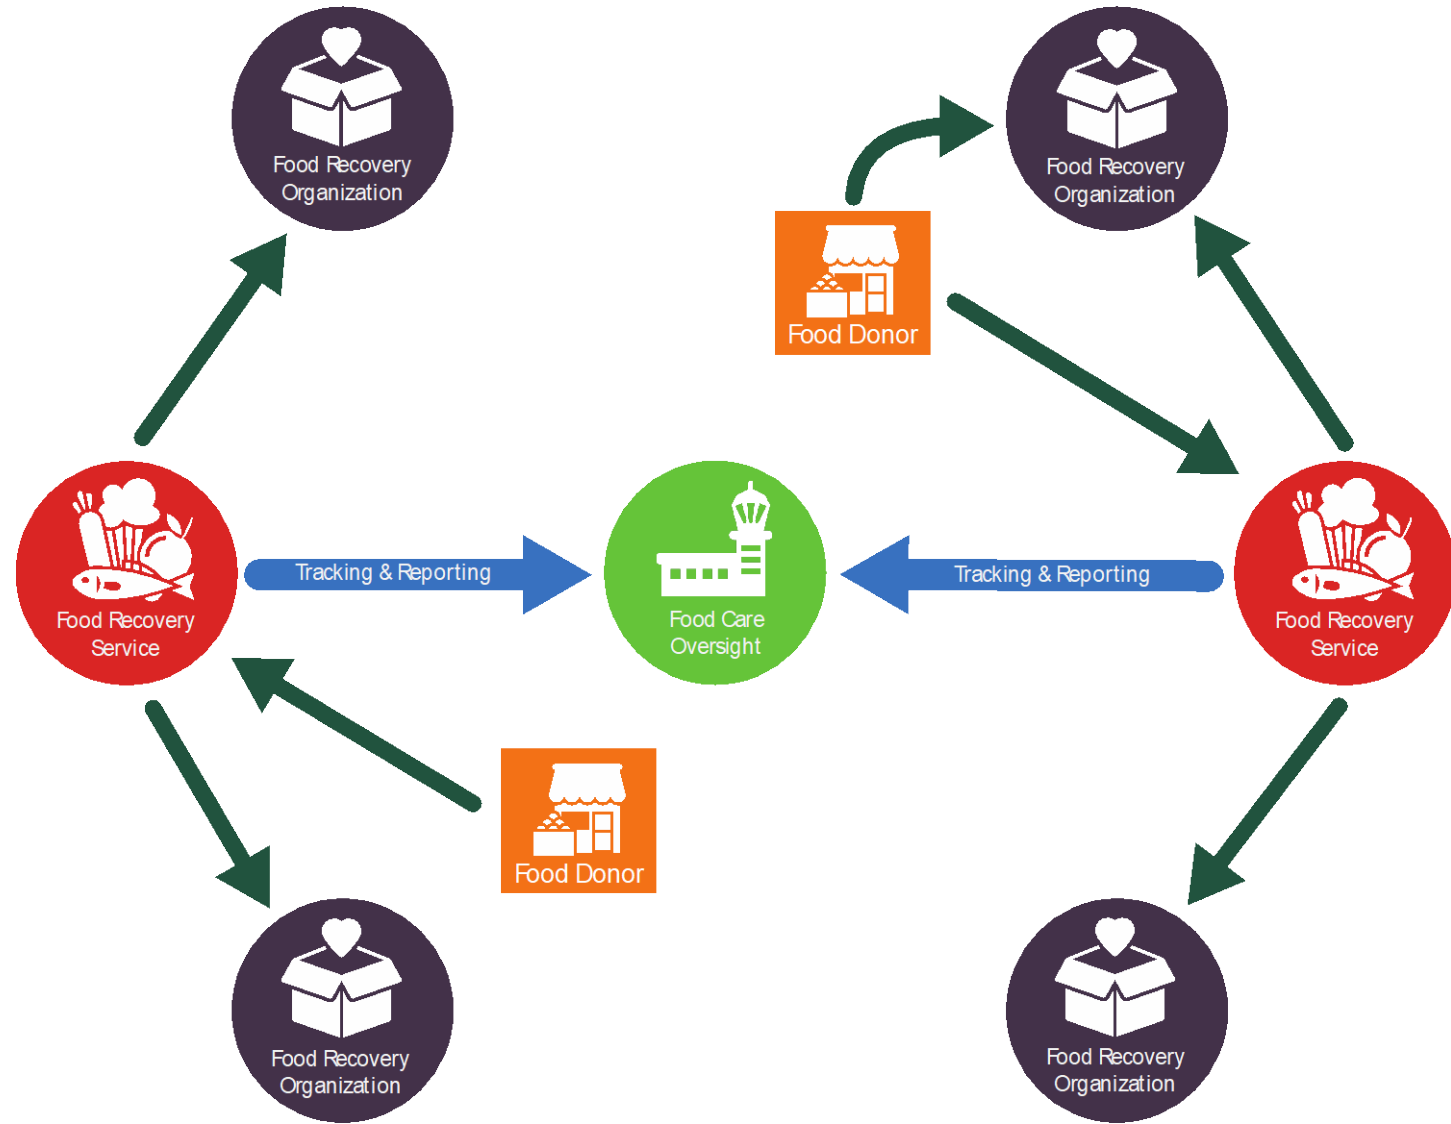

Food Recovery Service

- Transportation
- Storage
- Food Administration

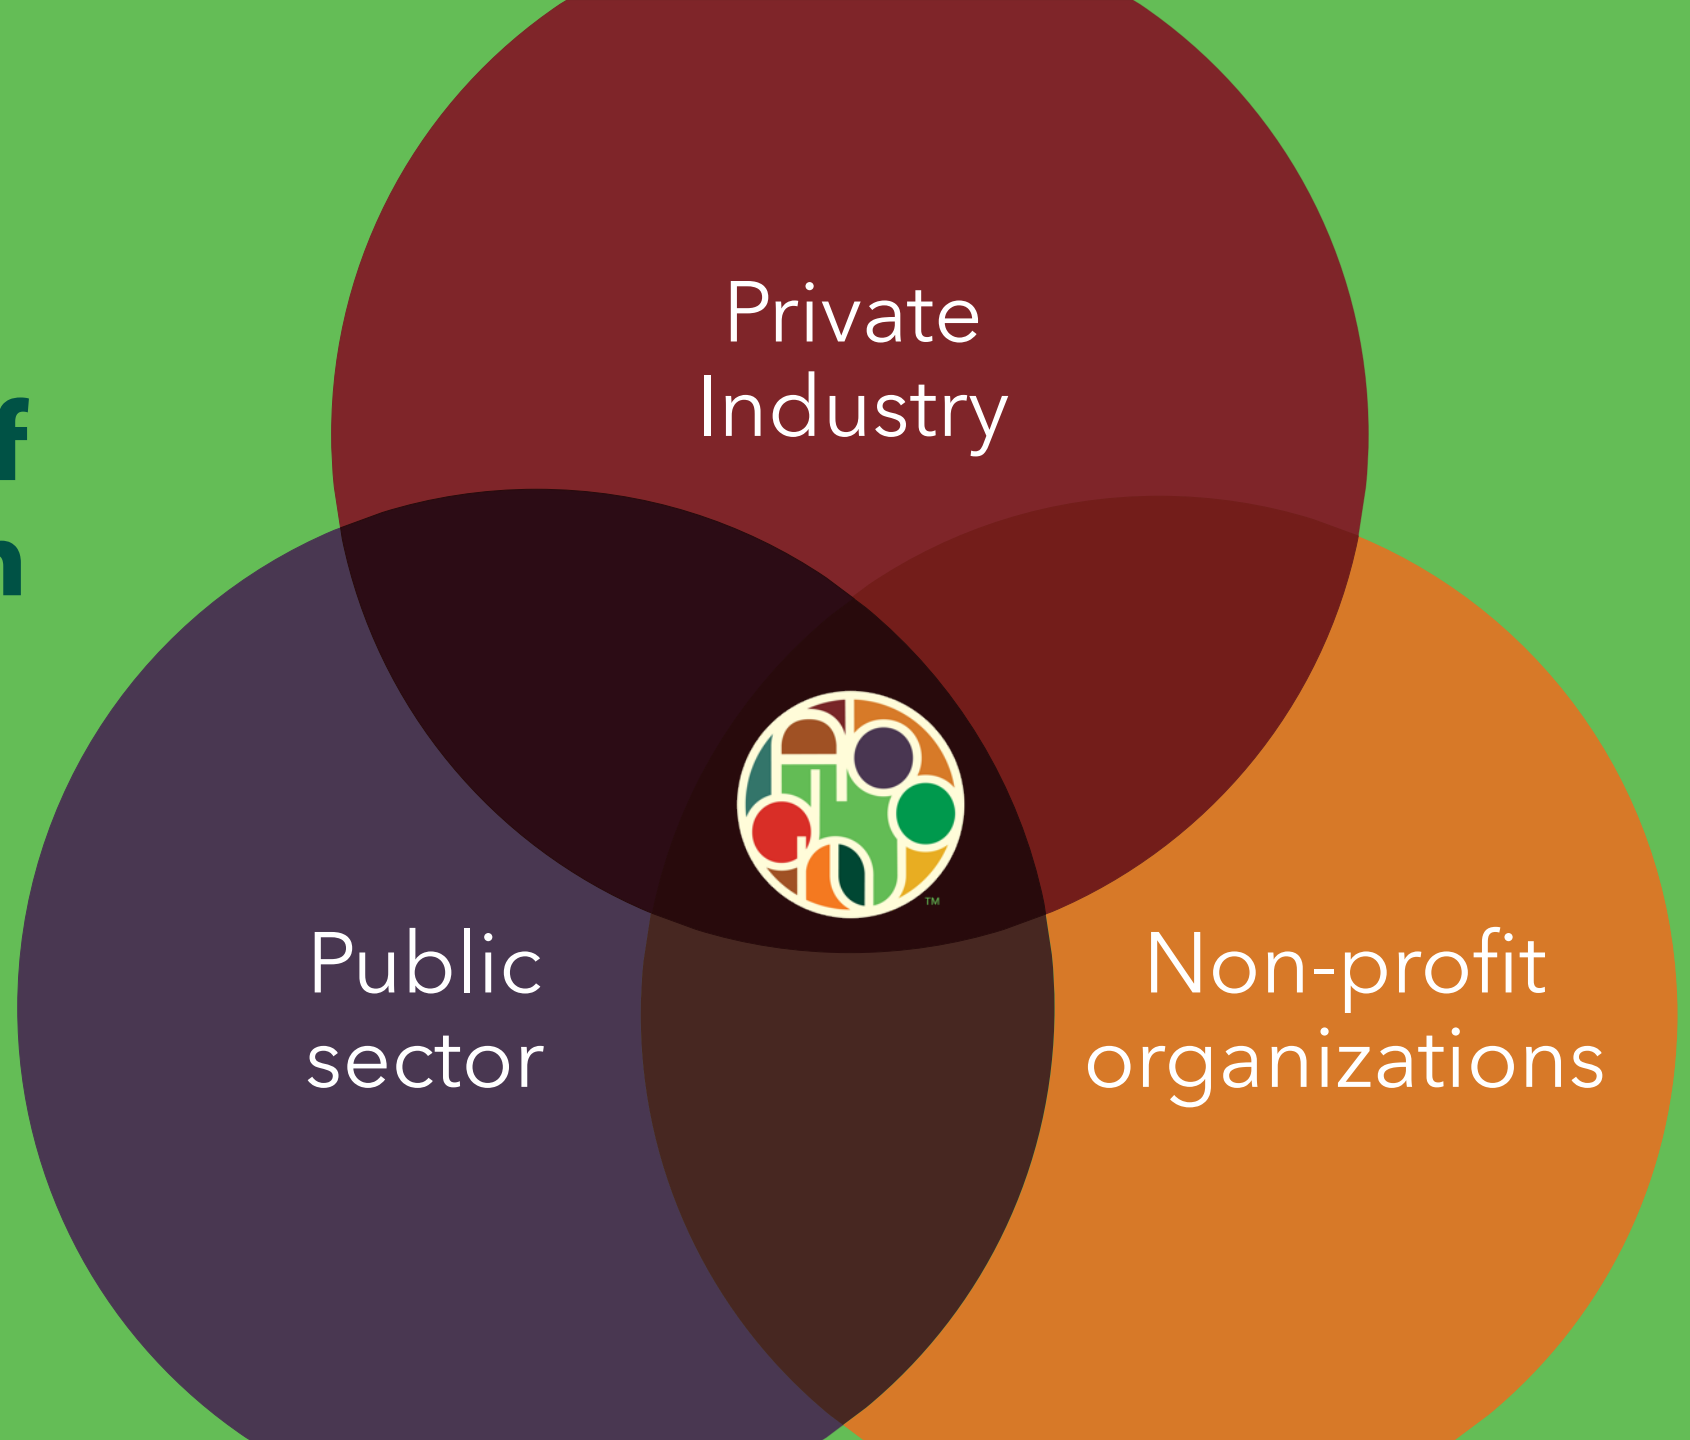

Food Recovery Organization

- Food Distribution
- Community Outreach
- Social Services
